

testing::Test

```
classDiagram
    class testingTest["testing::Test"]
    class SpriteTest
    SpriteTest --|> testingTest
```

The diagram illustrates a class inheritance relationship. At the top is a box labeled 'testing::Test'. Below it is a box labeled 'SpriteTest'. A blue arrow points from the 'SpriteTest' box up to the 'testing::Test' box, indicating that 'SpriteTest' inherits from 'testing::Test'.
