

testing::Test

```
classDiagram
    class testingTest["testing::Test"]
    class SpriteTest
    SpriteTest --|> testingTest
```

The diagram illustrates a class inheritance relationship. At the top is a white rectangular box with a thin gray border containing the text "testing::Test". Below it is a gray rectangular box with a thick black border containing the text "SpriteTest". A solid blue arrow points vertically from the top center of the "SpriteTest" box to the bottom center of the "testing::Test" box, indicating that SpriteTest inherits from testing::Test.

SpriteTest
